During the safety and information briefing, the following items were explained to me, and I was given an opportunity to ask questions about anything I didn't fully understand.

- The proper use of (and need for) the safety equipment provided to me by Lost World Caverns, including: Helmet, Headlight, Kneepads, and Gloves.
- The importance of wearing sturdy hiking boots, which I have provided for my own use.
- The inherent dangers of extreme adventure activities, like wild cave expeditions, and the importance of following the instructions of the guides to ensure my safety and well being.
- That the West Virginia Cave Protection Act states: "An owner of a commercial cave is not liable for an injury sustained by a spectator who has paid to view the cave, unless such injury is sustained as a result of such owner's negligence in connection with the providing and maintaining of trails, stairs, electrical wires or other modifications, and such negligence is the proximate cause of the injury."
